A supplier is required to have only one certificate of exemption form on file from each purchaser buying tax exempt. The supplier must exercise ordinary care to determine that the tangible personal property obtained under this certificate is for the purpose indicated. Manufacturers may not extend a Certificate of Exemption to a contractor under the above referenced sections. A supplier cannot accept a Certificate of Registration number bearing a "214" prefix since such numbers are issued to a contractor that has been deemed to be the consumer and is required to pay the tax at the time of purchase.
