

**IMPORTANT INFORMATION:** Product must be installed and used in strict conformance with NFPA Pamphlet 58 and/or NFPA Pamphlet 54 and all other codes, regulations and manufacturer recommendations.

Failure to follow these codes, regulations and recommendations could result in hazardous installation, bodily injury and/or death.

**PRODUCT TRAINING SCHOOLS AVAILABLE.** Contact a GEC customer service representative for more information.

**WARNING:** LP Gas is extremely flammable and explosive. Devices used for handling LP Gas and Anhydrous Ammonia must be installed and used in strict conformance with NFPA Pamphlet 58 and 54 and all other codes, regulations and manufacturer recommendations.

## Ansell Edmont Gloves

Specify Medium or Large.

Part #	Description	Size
GL-03-312	Edmont Monkey Grip gloves - liquid proof	One Size
GL-4-414L	Vinyl coated 12" gauntlet	Large
GL-23-173	Winter Monkey Grip. Knobby vinyl coating for better gripping power on wet or dry surfaces. Non-woven inner lining, one size.	
GL-23-193	Same as 23-173 except smooth coating	
GL-27-805	Edmont Hycon® gloves - Men's	One Size
GL-31-791L	Winter Tuf-Duk. Vinyl impregnated with lining for warmth. Driver's style with elastic wrist.	Large
GL-31-791M		Medium

GL-03-312

GL-4-414L

## Safety Headgear and Accessories

Part#	Description	Size
28-107A	Heavy duty faceshield/headgear	-
28-102ALUM	Faceshield attachment for hard hat - aluminum trim	-
SB1-1	C-Clear Brand Anti-Fog, Anti-Static Spray Cleaner for faceshield	1 oz
SB2-1		2 oz
SB4-1		3 oz
SB8-1		4 oz
GC01	C-Clear Brand Anti-Fog Gel Cup	1 oz

28-107A

C-Clear Anti-Fog Spray

## Flashlight

2-D cell explosion proof flashlight

Part #	Description
IN2-MS	2-cell explosion proof flashlight

Batteries NOT included

## Chock Blocks

Lightweight aluminum construction make these easy to handle. "Double Grip" safety design.

Part #	Description
CB-Alum	Aluminum chock block
CB-Bracket	Double Bracket

CB-Bracket

CB-Alum

## Weather Caps

Part #	Description
11013	4" - 4 3/16" Steel Weather Cap for Vent Piping
11011	3 1/2" - 3 11/16" Steel Weather Cap for Vent Piping
11009	3" - 3 3/16" Steel Weather Cap for Vent Piping
11006	2 1/4" - 2 7/16" Steel Weather Cap for Vent Piping

## E-Z Trench

E-Z Trench is a fast, professional, cost-effective tool for burying tubing. It is designed to increase your productivity & give you a competitive edge. A 9HP Briggs & Stratton engine provides plenty of power to cut clean, 100 ft. long, 8", 11", or 13" deep, by 2 1/2" wide trenches in minutes. The dual-belt design delivers twice the power to the digging edge and cushions sudden impacts. The unique hood places dirt in a neat pile beside the trench for quick, easy back-fill with minimum disturbance to the turf; and the solid metal construction with carbide blades are designed for long life. E-Z Trench is worth the investment because one man can do the job of two!

Part #	Description
EZ9000	Groundsaw with 9 HP Briggs & Stratton engine
EZ9100	Groundsaw with 6.5 HP Honda engine and "wetted" centrifugal clutch drive
EZ9036C	Complete set teeth for EZ9000 & EZ9100
EZ3036C	Complete set teeth EZ3000
EZ9100-BELT	Belt for EZ9100 Trencher
EZ9100BIT-LH	Left hand bit for EZ9100 Trencher blade
EZ9100BIT-PIN	Roll pin for EZ9100 blade bits
EZ9100-RH	Right hand bit for EZ9100 Trencher blade
EZ9100BIT-STRT	Straight bit for EZ9100 Trencher blade

## Lock Cap For Fill Valve

Designed to fit over Fill Valve to eliminate unauthorized filling or tampering. Has 1 1/2" shaft opening.

Part #	Description
22KA	Keyed-Alike Lock for use with Lock Cap
#1 Lock Cap	Filler Valve Lock Cap
#4 Lock Cap	Encloses Cylinder Valve handwheel to prevent opening or closing

#1 Lock Cap

#4 Lock Cap

## Lock America Valve Locks

Part #	Description
B531G+B827P-A0	POL Lock Complete with Lock & Plug for LP Outlet Valve Keyed Alike (key not included)
B545B-A0	Pad Lock 45MM with Boron Shackle Medium Security Keyed Alike (key not included)
S502K-C-BLUE*	Key (when ordered with lock order) Cut Uniquely with Code for Each Company
S502K-D-BLUE*	Key Duplicate (when ordered without lock order) Cut Uniquely with Code for Each Company
S533G-LLVC-A0	1 3/4" ACME Valve Cap Lock with Brass Cap & Slip Ring with Lock Keyed Alike (key not included)
S533G-H-LLVC-A0	1 3/4" ACME Valve Cap Lock with Hardened Steel Cap & Slip Ring with Lock Keyed Alike (key not included)
B800C-T104**	Dust Cover with Spring Action Cap for S533G Series 1 3/4" ACME Valve Locks

B531G+B827P-A0

S533G-LLVC-A0

B800C-T104  
Dust Cover shown  
with Lock Cap

B545B-A0

\* Other colors available

\*\* Order with S533G series valve cap locks or can be ordered separately as retrofit to previously purchased S533G series valve cap locks.

## Saf-T-Lock For POL Service Valves

Securely locks POL service valves to help prevent unauthorized hookups, reduces pilferage and increases security.

Part #	Description
511	Saf-T-Lock
511-K	Saf-T-Lock Key

NOTE: For orders of 12 or more locks, one key is included otherwise keys are sold separately.

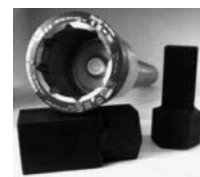

## Valve Wrench Tools

Part #	Description
M3235	Wrench for valve A8436G
M7835	Wrench for G8475RV/W fill valves
M13835	Wrench for valve A8434G

M7835

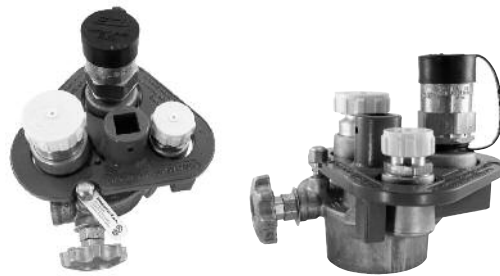

M3235 & M13835

## Multivalve Wrench

- Eliminate excavation at customer site when repairing/replacing RegO Multivalve.
- Use with standard 3/4" drive and extension.
- Cast steel and heat treated for long service life.
- Designed by a Serviceman for Servicemen.

Part #	Description
MVWrench	Wrench attachment for Multivalve

MVWrench

## ACME Wrench

Part #	Description
J Wrench	For 3 1/4" ACME
Wrench IC2	

Wrench IC2

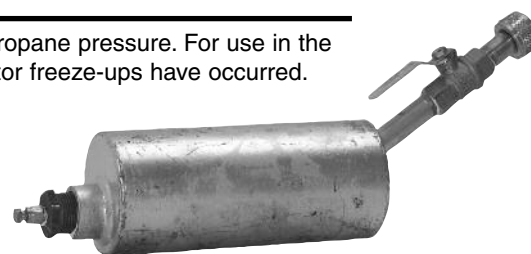

J Wrench

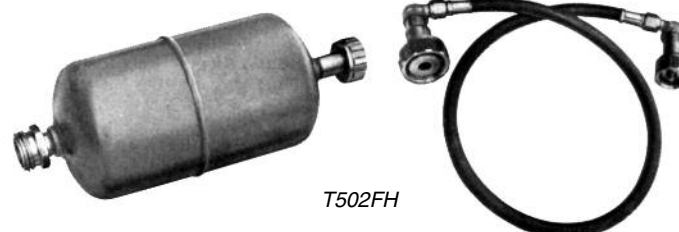

## Methanol & Methanol Injectors

Prevents and overcomes freeze ups. Check valves prevent back flow of propane pressure. For use in the field on containers suspected of containing moisture or with which regulator freeze-ups have occurred.

Part #	Description
LC-1	Alcohol Tank with 1-1/4" F. ACME Vapor Connection Fittings
T500	Alcohol Tank Only
T501F	Alcohol Tank with 5765D & 3175 Coupling
T502FH	Alcohol Tank with Fittings & Hose Assembly
T503H	Hose Assembly (Includes): 1 - 3171A Coupling 1 - 3175B Coupling 1 - VHA404FF Assembly 1 - E3-6D Elbow
Methanol-5GAL	Methyl Alcohol 5 Gallon Container
Methanol-55GAL	Methyl Alcohol 55 Gallon Drum

LC-1

T502FH

## Cathodic Protection

### For Underground Propane Tanks

NFPA 58 requires the use of good engineering practices to protect underground propane tanks from the action of soil electrolysis. The use of a durable phenolic paint along with high quality, magnesium anodes attached to the tank by use of the **Cadweld System** meets this requirement. Tanks should be further isolated by use of insulating unions on piping.

### Cadweld System

Item No.	Description
CAHAA-1G	Vertical Cadwelder
CA-15	Weld Metal Shots – Box 20
CAB133-1H	Sleeve
CAB136A	Mold Cleaner

CAHAA-1G  
CA-15  
CAB133-1H  
CAB136A

## Anode

Magnesium anode bag with attached 10' #12 electric wire. The anode must be activated with water before backfilling.

Part #	Description
H1-17	17# Anode bag
H1-9	9# Anode bag

## Tank Test Kits & Accessories

Part #	Description
ETM	Underground Tank Test Kit Consists of a voltage meter and copper sulfate electrode combined in one easy to use unit. Comes with lead wire to clamp on tank.
JN-CP Test Kit	Test Kit to test pipe to soil potentials for adequate cathodic protection. Kit includes: DM 133 Multimeter with Test Leads; Copper Sulfate Half Cell Electrode; Heavy Duty "Clamp" Style Test Leads
RE-5C	Replacement Copper Sulfate Electrode
16906	Copper Sulfate Crystals .75 lbs
17105	Anti-freeze Solution 8 oz bottle

RE-5C

ETM

JN-CP Test Kit

## Tank Saddle

Aluminum angled tank saddle with white not marking rubber bumpers. Fits up to 1000 gallon tank. Set of 2

Part #	Description
X-SADDLE	Tank Saddle

## DOT Placarding System

4 Directional placarding system that fits 120 to 1000 gallon sized tanks with non-marking bumpers

Part #	Description
DOT PLACARDING SYSTEM	Placarding System

## Contego Intumescent Latex (thin film) Passive Fire Barrier Paint

Contego Passive Fire Barrier is a heavy-bodied, single-part latex fire-proofing paint material. It is a water based product with no volatile organic compounds, is not classified as a hazardous material, and will clean up with soap and water. It is an alternative solution to Carboline Pyrocrete cementitious material that can be used to fire-proof and provide a 2-hour fire protection rating (with sufficient coats) on LPG installations (re: vertical tank legs).

### Method:

When activated by heat or flame, a dense carbon char is formed separating and shielding the substrate from heat while off gassing displaces oxygen from the treated surface; thus eliminating two of the three components needed for combustion.

Part #	Description
PFB-001W	1 Gallon Bucket
PFB-005W	5 Gallon Pail

### Features

- Water based paint with no VOC's.
- Is not classified as a hazardous material.
- Will clean up with soap and water.
- Is an optional solution to Carboline's Pyrocrete for fire-proofing.
- Can provide a 2-hour fire protection rating on LPG installations (re: vertical tank legs) with sufficient coats.
- Available in 1 or 5 gallon containers.

## **Red Dragon Complete Row Crop Flaming Units**

Comes with everything you need to get started (except for the liquid withdrawal tank). Available in 2, 4, 6 and 8 row models, featuring skid style tool bar legs.

### **Complete Units Include:**

- Complete roll cage protection for tank & control heads
- Tank straps with valve guard assembly
- Tool bar complete with skid leg mounting brackets
- Hydraulics for tool bar (standard on 8 RU - Optional on 6 RU)
- Complete Manifold Assemblies with electronic solenoids
- Can Control Box with master shut-off switch
- Skid Style Tool Bar Leg Assemblies
- All torches needed
- All necessary hoses cut to length with brass fittings
- Fuel Strainer
- Red Dragon Vapor Torch Kit for lighting of burners

Part #	Description	Wt. Each
2 RU	2 Row Unit	802.0 lbs.
4 RU	4 Row Unit	1,000.0 lbs.
6 RU	6 Row Unit	1,250.0 lbs.
8 RU	8 Row Unit	1,450.0 lbs.

**6 RU Shown Here With Optional Hydraulic Tool Bar**

## Facilitate Truck Hookup At Plant

### Enhanced Aesthetics & Plant Safety

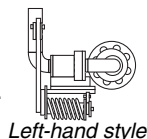

- All steel construction.
- A-frame design maximizes working area.
- Longer lasting.
- Little or no hose to maintain.

### Keeps Hose & Valving Off Ground

- Eliminates wear and tear and contamination.
- Equipment lasts longer.
- Makes transfer operation safer.

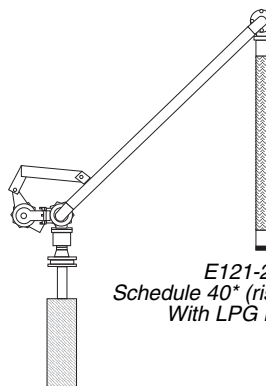

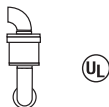

### Spring Counter Balance

- Valve connection takes less effort.
- Easier for driver, less strain, increased productivity.
- Less time to hook up and transfer.

### UL Listed Split Flange Swivel Joints

- Energized split-ring seal for improved wear.
- Easy field maintenance.
- Only UL listed Swivel Joint for LP Gas.

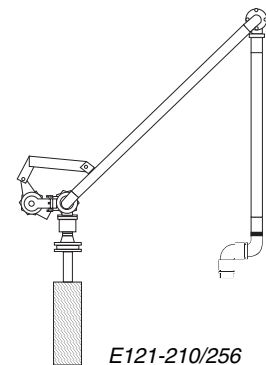

E121-257/258  
Schedule 40\* (riser) safety loader  
With LPG hose (drop)

## Styles Available

- All steel construction.
- Steel riser w/hose assembly drop.
- Steel riser only.

Part #	Description (riser only)
E121-257*	2" RH sch. 40
E121-258*	2" LH sch. 40
E121-210	2" RH ALL sch. 40
E121-256	2" LH ALL sch. 40

\* Requires hose assembly for drop  
Schedule 40 not available for sale in Texas.

E121-210/256  
All schedule 40\* (riser & drop) safety loader  
with 3 way outboard swing joint.
