

# EZConnect Pro

...making your delivery data flow

## How EZ-Connect Pro Works

With the Procontrol remote, the fueler scans the RFID button located on or near the fuel tank. Once the RFID button is scanned, the Procontrol sends a wireless signal to the DMS to identify the vehicle number, fuel type, owner, and correct fuel to be dispensed. The DMS consecutively signals the pump and meter to begin fueling.

After fueling is completed, the in-cab printer will record the delivery. The delivery data is automatically sent to the GEC Delivery system via a cellular or Wi-Fi modem in the truck cab. From the GEC Delivery software, office personnel download the delivery data into an Excel file which is then uploaded into the third party billing software.

Line	Date	Time	Owner	Site	Product	Volume	Rate	Amount	Station	Operator
1	10/12/12	14:00	ABC	101	Gas	100.00	1.50	150.00	101	John
2	10/12/12	14:05	ABC	101	Gas	50.00	1.50	75.00	101	John
3	10/12/12	14:10	ABC	101	Gas	25.00	1.50	37.50	101	John
4	10/12/12	14:15	ABC	101	Gas	12.50	1.50	18.75	101	John
5	10/12/12	14:20	ABC	101	Gas	6.25	1.50	9.375	101	John
6	10/12/12	14:25	ABC	101	Gas	3.125	1.50	4.6875	101	John

...making your delivery data flow

## GEC Delivery Software

The GEC Delivery software is a multipurpose tool for managing your delivery data. From the GEC Delivery software, office personnel download the delivery data into an Excel file which is then uploaded into the third party billing software. Data can be sorted on the website or in the excel file by any of the 19 data types listed on the right. Delivery data can also be downloaded in a PDF format. The PDF file is easy to read and print for record keeping and reviewing.

With GEC Delivery software, your company will be able to obtain delivery data in real time. Instant access to delivery information allows for quicker scheduling of truck maintenance based on fueling hours and gallons delivered. You can also promptly create customer schedules and rate changes based on gallons consumed.

The screenshot shows the GEC Delivery Software interface. At the top left is the GEC logo with 'SINCE 1937' and 'GAS EQUIPMENT CO., INC.' below it. The page title is 'GEC DELIVERY'. A navigation bar includes 'HOME', 'USER MAINTENANCE', 'GEC DELIVERY REPORT', 'DATA MANAGEMENT FC', and 'CHANGE PASSWORD'. Below the navigation bar is a 'Search Criteria' section with fields for 'Begin Date' (00:00:00), 'End Date' (23:59:59), and 'Location' (checked for GEC, unchecked for SCHM). There are buttons for 'Run Report', 'Download Excel Data', and 'Report PDF'. Below the search criteria is a 'Delivery Report' table with the following columns: ID #, Date Time, Owner ID, Unit #, Fueler, Reference, Begin Delivery, End Delivery, Vehicle, Product, and Gross Qty. The table contains 11 rows of data. At the bottom right of the table, it says 'Page 1 of 3'.

ID #	Date Time	Owner ID	Unit #	Fueler	Reference	Begin Delivery	End Delivery	Vehicle	Product	Gross Qty
1	10/10/13 11:06:35	GEC	1	01	101011013	10/10/13 11:04:32	10/10/13 11:06:35	6535	DSL	238.6
